Summary

Full-Stack and Frontend Software Engineer with 3+ years of experience building scalable web and mobile applications. Proficient in the MERN stack, React Native, and Next.js, with a strong focus on clean architecture and performance. I enjoy collaborating with designers and product teams — handling everything, from feature development to deployment — and I'm looking for a role where I can keep growing and make a real impact

Technical Skills

Frontend — React.js, Next.js, React Native, Flutter, Redux, TypeScript, Tailwind CSS, Bootstrap

Languages & Backend — PHP, Laravel, Node.js, Express.js, ASP.NET, C#, Python, Java, C++, JavaScript

Databases — MySQL, PostgreSQL, MongoDB, Firebase, Supabase

Tools & Others — Docker, GitHub, RESTful APIs, GraphQL, Agile/Scrum

Professional Experience

Frontend Engineer, AIM Technology

06/2025 – Present

- Developed and maintained production-grade mobile applications published on the Google Play Store, contributing to core modules of **AIM Stock** (inventory management) and **AIM Voice** (payment verification and tracking) using React Native and Expo.
- Built Progressive Web Applications (PWAs) using Next.js, delivering responsive, performant interfaces integrated with NestJS backend services across platforms with 10+ functional modules.

Full-Stack Engineer, Freelance

01/2022 – Present

- Designed and delivered commercial web and mobile solutions for multiple clients, with a focus on scalability, clean architecture, and strong UI/UX.
- Architected and developed a full-featured e-commerce platform for **Geez Shoes** using Next.js and Supabase, delivering a scalable storefront with role-based admin controls, SEO optimization, and integrated analytics.
- Built a responsive commercial website for **Sabawiyen Leather** with a strong focus on UI/UX, SEO, and page speed optimization, integrating a database layer and admin-facing order management controls.

Full-Stack Developer Intern, Ethiopia Tourist Trade Enterprise

07/2023 – 10/2023

- Designed and developed a MERN-based archive management system.
- Implemented RESTful APIs and dynamic frontend features.
- Led a small development team and coordinated deployments.

Education

Bachelor of Science in Computer Science, Addis Ababa University

Addis Ababa, Ethiopia

Projects

GeezShoes Website
